

3	Introduction to multiparameter models	63
3.1	Averaging over ‘nuisance parameters’	63
3.2	Normal data with a noninformative prior distribution	64
3.3	Normal data with a conjugate prior distribution	67
3.4	Multinomial model for categorical data	69
3.5	Multivariate normal model with known variance	70
3.6	Multivariate normal with unknown mean and variance	72
